

MARK

## User benefits

#### A Complete Solution

- Very compact all in one design
  - · Base mounted unit requires less than a square meter
  - · Available on air receiver
  - Also with dryer and filters if needed
- Full protected for transport
- No special foundation required
- Very low vibration and noise level
  - Easily installed inside the workshop, very close to the air usage point

#### Legendary reliability

- Robust and reliable design
- Built with first-class components
- New generation of rotary screw element allows you to work on 100% continuous duty cycles and very hard working conditions
- An oversized ventilation ensures low internal temperatures, making your compressor live better and longer
- The complete unit is designed to operate at ambient temperatures up to 46° C/115 ° F

### Easy Maintenance and Accessibility

- All service components located at the front of the machine for excellent accessibility
- All service components strategically located for excellent accessibility
- Oil-level sight glass at the front, visible without removing any panel
- Easy and guick check thanks to the controller
- Service and cleaning is a one person job

### Cost Efficiency

- Reliable design
- Low maintenance costs
- Long service intervals
- Low energy consumption, thanks to reputed IE3 Motors and advanced screw compressor element
- High performing lubrication and cooling systems

### **MSM 5.5 - 15 kW**

Compressed air drives most of the businesses, consequently choosing the right compressor is one of the most important decisions your company can make. Our MSM range is a robust and reliable belt driven oil-injected screw compressor - a first-class product that can be easily equipped with an air receiver, a refrigerant dryer, pre and post filters, offering you a compact and complete solution for your business.

The MSM legendary reputation was built throughout the years based on MARK's constant investment in new technologies and quality improvement, being today a safe choice that you will never regret.

Bring fresh air into your company and enjoy the performance, simplicity and the reliability that only MARK can offer.

### **SMART TECHNICAL ADVANTAGES**

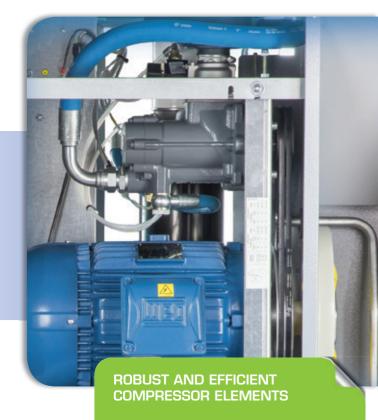

#### A COMPLETE SOLUTION

- installations including dryer and filters.

#### **TOTAL RELIABILITY**

- Built for 100% continuous duty cycle.
- temperatures, making your compressor live

elements, provides top performance

#### HIGH QUALITY AIR DELIVERY

### THE PERFECT SOLUTION FOR THE SMALL BUSINESSES

#### >>> MSM 5.5 - 15 kW

Easy to use, efficient and reliable, the MSM range meets the compressed air demands of tire shops, paint shops, car dealers, maintenance shops, small industries in general.

Quiet by design, the MSM can be installed almost anywhere in the workshop, without disturbing your working environment. Base mounted or tank mounted, with or without dryer and filters, the MSM is a complete solution for your business.

#### >>> Components

- Controller
- 2 Emergency stop
- PDP controller
- Dryer switch
- Oil cooler
- 6 Oil seperator vessel
- Oil filter and oil seperator
- Oil level sight glass
- Electric motor

- Belt drive system
- 1 Compressor element
- 12 Refrigerant dryer
- 13 Pre and post line filters
- Safety valve

# >>> Intelligent monitoring, control and protection

The ES 4000 Basic Controller offers advanced monitoring and simple day-to-day configuration and control for your operation.

- Icon-based display with pressure and temperature readings
- Running hours, load hours
- Maintenance warnings
- Failure alarms
- Fast pressure setting directly on the controller
- Remote start-stop
- Automatic restart after power failure

Oil injected screw compressors, belt driven - MSM

- A high quality product offering you technology you can trust.
- Our products are easy to use and guarantee high reliability.
- Distributors are always nearby ensuring availability of both products and support.
- Choosing our high performance products entails a partnership that will boost your business.
- Safeguarding long-term productivity through optimal serviceability and use of original parts.

# Care. Trust. Efficiency.

#### Care.

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

#### Trust.

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

#### Efficiency.

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.
