

# SYSMASTER

## MULTIFUNCTIONAL OIL-FREE UNIT

# Convincing solutions

## COMPRESSED AIR SOLUTIONS FROM A SINGLE SOURCE

Our product portfolio covers all compressed air areas: The generation, conditioning, distribution and usage of compressed air. This way we always know what is really important for the profitable operation of your company.

## OUR SOLUTIONS

- High-performance and user-oriented products from the generation to usage
- Innovations and further development of the product portfolio according to customer requirements
- Quality management for assuring the highest quality standards

### Save time!

With us you get everything to do with compressed air from a single source.

# SysMaster

Perfect in a system,  
extremely lightweight & unrivalled versatility

**Perfect in the system**  
thanks to combination  
with other Systainers

**Outstanding  
transportation properties**  
thanks to ergonomic handle

**Unrivalled  
lightweight design**  
at only 13 kg

**Extremely robust:**  
Operating the machine inside  
a closed Systainer protects the  
sensitive components perfectly  
while simultaneously reducing  
noise levels

**Simple operation  
from exterior**  
due to integral operating  
panel with quick-action  
coupling, pressure reducer,  
two pressure gauges and  
condensate drainage

**Easy to manoeuvre**  
on the optional roll board

Example: SysMaster SYM 150-8-6 WXOF

Perfect in the system: The combination with other Systainers, excellent transport properties, robustness and optimal operability are the big advantages of the SysMaster! In combination with the roll board the SysMaster makes an optimal partner for mobile applications such as blowing, stapling and nailing or sealing.

## Perfect in a system – the SysMaster compressor

### Easy to handle and light.

Weighing only 13 kg and with the option to combine the compressor with a roll board, transporting all components on the construction site is extremely easy and manageable.

### Robust.

All fittings are reliably protected by the Systainer. Operation when the Systainer is closed offers complete protection of all parts and reduces the noise level. The SysMaster demonstrates its tough and long-lasting qualities on the construction site.

### Combinable.

The SysMaster is compatible with other Systainers. With it you create a perfect transportable system. Thanks to the clever connection you save time by being able to transport more devices at the same time. Compressors, tools and accessories are ready to hand and safely stowed away at all times.

Unrivalled in terms of simplicity and reliability
